Summary

Software developer for about 5 years. Proficient in web developing and expert on unity.

Over the years worked on variety of platforms and languages, and that made me fast learner and great problem solver.

3 years experience with the IDF with complicated projects. For a period, I was the only programmer at the Navy training base in Haifa, and the pioneer of the field of technological learning within the Navy.

In the web environment, my strong skills includes HTML, CSS, JavaScript, jQuery, ReactJS, WordPress and Figma.

In the games & simulations environment, my skills includes Unity3D & 2D, C#, HTML Canvas and Python.

a wide experience with Adobe Design and video platforms which I used a lot in my projects over the years (Photoshop, Illustrator, Premiere, After Effects and Animate), and with Articulate Storyline.

I can assure diligence and effectiveness, and I'm eager to start a new role in the field.

Professional Experience

Surf Instructor, Surf Club Haifa

2017-2020 | Haifa

Worked with children and adults, in all ages. I coped with a lot of complicated work, and developed training and responsibility qualities that accompany me to this day.

Python Thesis, Hebrew Reali School

2021 | Haifa, Israel

Created a python application that calls "Bagh-Chal", strategic, two-player board game. The game created with a AI Algorithms and had a Player v Computer mode with different levels of difficulty. In this project, I learned and used recursive algorithms and the "minimax" technique. My Final score was 100.

Unity3D Developer, IDF Navy

2020-2023 | Haifa, Israel

Developed simulations that illustrate scenarios faced by the soldiers from the various departments on the ships. And they are used for daily use in trainings.

Web Developer, IDF Navy

2020-2023 | Haifa, Israel

Developed tutorials websites that includes interactive user experience and involves learning games and and test within them. Those websites are also in daily use in different detachments around the Navy training system.

Freelancer WordPress Developer,

2023-today

During those days I'm building WordPress sites for companies.

check out my projects in my website.
